

# Activity Report

(Event organized by GNDEC Data Science Club)

**Name of the Event:** Seminar on “Machine Learning”

**Date & Venue of Event:** 13<sup>th</sup> December, 2021, (Online Mode)

Data Science Club of GNDEC organized an expert lecture as one of its initiative towards spreading awareness about various aspects of Machine Learning on 13/10/2021. Industry expert Mr. Ashwin from Coding Ninjas shared his expertise on the topic "Machine Learning". Students from different departments of the college participated in the event and got benefitted from the expert lecture. Advance topics related to Machine Learning in modern world, AI Case Studies etc. were presented. Mr. Ashwin, Machine Learning Engineer shed light on the process of Machine Learning with python language. He also discussed various challenges faced by engineers during data analysis before we could apply the machine learning model. Students were taught how to write various machine learning algorithms using python such as linear and logistic regression, random forest, neural networks etc. Some specific topics like Reinforcement Learning, NLP and Deep Learning were also discussed by the expert. Participants discussed their queries with expert and gained knowledge about Machine Learning aspects. This type of event always play crucial role in enhancing the knowledge of students and motivate them to gain expertise. The participants will be able to utilize the knowledge for their upcoming projects and can make predictions.
