ACTIVITY REPORT

(Event organised by GNDEC Data Science Club)

Name of the event: "Hackoverflow".

Date of the event: From 6th October 2021 to 8th October 2021.

Platform: Git-hub.

Course of the event: The main purpose of this event was to teach the students about the use of Git-hub. The event was in the collaboration with "hacktober 20 fest21". It was held online on Git-hub. The students were asked to make the changes in the repositories made by the senior students. The event was about the open-source contribution how students can make the proper use of the open sources available for them. This event gave the knowledge of open source like Git-hub to the students. They were taught how they can save their projects in Git-hub and can push or pull according to their desire.
