INTRODUCTION:

Computer Society of India -Student Chapter, Guru Nanak Dev Engineering Ludhiana organised an interactive session on the topic of **Blockchain and Web 3 Technologies** on September 18, 2023. More than 500+ students from the various branches of engineering and computer applications participated in this session.

Blockchain technology is an advanced database mechanism that allows transparent information sharing within a business network. A blockchain database stores data in blocks that are linked together in a chain. Web 3.0 describes the next evolution of the World Wide Web, the user interface that provides access to documents, applications and multimedia on the internet. Web 3 is a proposed future internet version built on blockchain networks, a peer-to-peer, record-keeping system known best for enabling cryptocurrency transactions.

The expert speaker for the session was Mr. Deepak Goyal, Alumni of IIT Delhi, and Co-founder of Crewsphere: ICP India Hub. Students shown keen interest in listening to the words of experts regarding the new and emerging technology and cleared their doubts.

Mr. Ujjwal and Ms. Swati Co-founder of Volaverse addressed the participants too regarding blockchain in metaverse. They had also shared about what all interns have done and what could be the possible opportunities available for them in the future also.

In this session, the first 5 entries were facilitated with the VR Headset and the next 25 students with the limited edition book. The presence of worthy Principal-Dr.SehijpalSingh, HoD's, Dean Student Welfare, and other faculty members has been embarked too during the session. Principal Sir, appreciated and congratulated the team for organizing such an informative session and encouraged them to organize similar events in future also.
