RULES ✨

1. Each team must have two members.
2. The themes will be given on the spot at the beginning of the competition.
3. Teams will have 1 hour to find solution for that problem through technical approach and they have to present that solution through presentations.
4. Any software can be used to prepare the presentation.
5. Presentations should be 3-5 minutes long.
6. There will be a cross-questioning session by judges after each presentation.
7. Solutions should be innovative and unique; plagiarism is prohibited.
8. Teams must adhere to fair play and respect for all participants.
9. Preferably bring your own Laptops.
10. The judges' decisions will be final and binding.
