

**Guru Nanak Dev Engineering College, Ludhiana**  
**Department of Computer Science & Engineering**

Ref. No.:.....

Dated:.....

**MINUTES OF MEETING**

Minutes of 2<sup>nd</sup> meeting of Board of Studies of Computer Science and Engineering department held on 03.09.2014 at 11:00 am in the college committee room.

The following persons were present:

1. Dr. Parminder Singh, Associate Professor & Head, Department of Computer Science and Engineering, GNDEC, Ludhiana (Chairman)
2. Er. Amanpreet Singh Brar, Associate Professor, Department of Computer Science and Engineering, GNDEC, Ludhiana (Member)
3. Er. Sumeet Kaur Sehra, Assistant Professor, Department of Computer Science and Engineering, GNDEC, Ludhiana (Member)
4. Er. Vivek Thapar, Assistant Professor, Department of Computer Science and Engineering, GNDEC, Ludhiana (Member)
5. Dr. Gurpreet Singh Lehal, Professor, Department of Computer Science, Punjabi University, Patiala (Member)
6. Dr. Sukhwinder Singh, Professor, UIET, Punjab University Chandigarh (Member)
7. Dr. Paramjit Singh, Assistant Professor, Giani Zail Singh Punjab Technical University Campus, Bathinda (Member)

The meeting started with welcome address by chairman BOS, and the already circulated agenda was put up for discussion. Following decisions were taken unanimously:

**Proceedings:**

**Agenda Item 1**

**Apprising the Board of Studies about adopted Outcome Based Education (OBE) Model and discussion on attainment of Program Educational Objectives (PEO's) through Program Outcomes and in turn through courses.**

**The Following items are approved :**

**Vision of Department:**

To generate competent professionals to become part of the industry and research organizations at the national and international levels.

**Mission of Department:**

-----  
Dr. Parminder Singh

Er. Vivek Thapar

Dr. Paramjit Singh

Er. Amanpreet Singh Brar

Dr. Gurpreet Singh Lehal

Er. Sumeet Kaur Sehra

Dr. Sukhwinder Singh

- a) Providing a strong theoretical and practical background across the computer science discipline with an emphasis on software development.
- b) Imparting the skills necessary to continue education to grow professional.
- c) Empowering the youth in rural communities with computer education.
- d) Inculcating professional behavior, strong ethical values, innovative research capabilities and leadership abilities.

**Program Education Objectives (PEO's) of M.Tech. (Computer Science and Engineering):**

- 1. Practice with an expertise in academics, entrepreneurship, design and development in computing technology, or research in a specialized area of computer science and Engineering to pursue higher studies.
- 2. Exhibit analytical, decision-making and problem solving skills by applying research principles for handling real-life problems with realistic constraints.
- 3. Ability to communicate the findings or express innovative ideas in an effective manner with an awareness of professional, social and ethical responsibilities.

**Program Outcomes (PO's) of M.Tech. (Computer Science and Engineering):**

- a) Apply knowledge of recent computing technologies, skills and current tools of computer science and engineering.
- b) Ability to design and conduct experiments, as well as to analyze and interpret data.
- c) Knowledge of contemporary research issues in the different areas of computer science & engineering.
- d) Ability to explore research gaps, analyze and carry out research in the specialized/emerging areas.
- e) Design software systems, components, or processes to meet identified needs within economic, environmental and social constraints.
- f) Ability to express/present ideas in an impressive and professional manner.
- g) Recognize the need to engage in lifelong learning through continuing education and research.
- h) Ability to work in multi-disciplinary and multi-cultural environment.
- i) Ability to become entrepreneur based upon societal needs.
- j) An understanding of professional, social and ethical responsibilities.

**Agenda Item 2**

**To discuss and finalize the Curriculum Design Process**

### **3.3 Finalizing the syllabus of subjects of 1<sup>st</sup> semester of M.Tech. Computer Science and Engineering New Scheme**

Committee approved the proposed syllabus of subjects of 1<sup>st</sup> semester of M.Tech. Computer Science and Engineering New Scheme and authorizes Chairman BOS for further changes if required.

#### **Agenda Item 4**

#### **Question paper setting for end semester examinations of B.Tech. and M.Tech.**

The BOS approved the paper setting mechanism by the Controller of examination from the panel of examiners recommended by the Head of the department. Regarding the quality checking of the question paper the committee gave the following recommendation:

“The BOS members are of the view that the quality (coverage of syllabus, distribution, format as per specified instructions) of the question paper of end semester examinations should be checked only after the conduct of examination and necessary steps should be taken in case of any discrepancy found.”

#### **Agenda Item 5**

#### **5.1 Finalizing the books of B.Tech. 1<sup>st</sup> year Subject FCP&IT**

The Following list of books for the subject FCP&IT are approved:

1. Fundamentals of Computers , V. Rajaraman, Prentice Hall of India
2. C: The Complete Reference: Herbert Schildt, McGraw Hill
3. E Balagurusamy, Programming in ANSI C, 3ed., Tata McGraw Hill, 2003
4. Let us C: Y.P. Kanetkar, B.P.B. Publications
5. Computer Concepts and Programming in C, R.S. Salaria, Salaria Publications House
6. Programming in C, Ajay Mittal, Pearson Education
7. Fundamental of Computer Programming and IT, Sumita Arora, Dhanpat Rai & Company.

## 5.2 Finalizing the syllabus of 1<sup>st</sup> year B.Tech. Subject FCP&IT Lab

The following syllabus of 1<sup>st</sup> year B.Tech. Subject FCP&IT Lab is approved

### Fundamentals of Computer Programming and IT Lab

1. Familiarization with the Computer System
2. Navigating with Explorer, Working with Control Panel, work at the command prompt, understanding of virus guards and antivirus software, Exploring the Internet.
3. Word processing, spread sheets, presentation software
4. Write a program to find the nature of the roots as well as value of the roots. However, in case of imaginary roots, find the real part and imaginary part separately.
5. Write a program, which takes two integer operands and one operator form user, performs the operation and then prints the result. (Consider the operators +,-,\*, /, % and use switch statement).For example, the input should be in the form: 5 + 3 the output should comes Result = 8
6. Fibonacci sequence is defined as follows: the first and second terms in the sequence are 0 and 1. Subsequent terms are found by adding the preceding two terms in the sequence. Write a program to generate the first n terms of the sequence. For example, for n = 8, the output should be 0 1 1 2 3 5 8 13
7. Write a program to print all the prime numbers between m and n, where the value of m and n is supplied by the user.
8. The number such as 1991, is a palindrome because it is same number when read forward or backward. Write a program to check whether the given number is palindrome or not.
9. A positive integer number IJK is said to be well-ordered if  $I < J < K$ . For example, number 138 is called well-ordered because the digits in the number (1, 3, 8) increase from left to right, i.e.,  $1 < 3 < 8$ . Number 365 is not well-ordered because 6 is larger than 5. Write a program that will find and display all possible three digit well-ordered numbers. The program should also display the total number of three digit well-ordered numbers found.
10. Write a function to computer the highest common factor of integer numbers m and n. Use this function to find the highest common factor of integer numbers a and b.
11. Given the marks (out of 100) obtained by each student in a test of a class with n students. Write a program to obtain the following information:
  - (a) minimum and maximum marks score
  - (b) average score of the class, and
  - (c) number of students whose score is greater than class's average score
12. Write a program to multiply matrix  $A_{m \times n}$  by  $B_{p \times q}$ , given that  $n = p$ .
13. Write a program to sort a list of n integer numbers in descending order using bubble sort method.
