

Activity Report

(Event organized by GNDEC Data Science Club)

Name of the Activity: Smart Prompts

Date & Venue of Event: 21st September, 2023(Thursday), Room No.:S-215, Department of Computer Science and Engineering

Data Science Club of GNDEC organized student activity “*Smart Prompts*” as one of its initiative towards giving exposure of new technologies like use of chatGPT awareness about various aspects of.

Students came up with unique and creative prompts to pass to ChatGPT, an advanced AI language model, in order to get answers to questions which it would normally refuse to answer. This event tested the students’ ability to interact with direct AI tools such as ChatGPT in order to achieve a specific task. Students Harinder Singh,Rishab Mehta,Diya Baweja got 1st ,2nd and 3rd positions respectively.

Participants discussed their queries with experts and gained knowledge about Data Science aspects. This type of event always play crucial role in enhancing the knowledge of students and motivate them to gain expertise. The participants will be able to utilize the knowledge for their upcoming projects and will be able to help the society with the use of data analytics.
